SUMMARY

Creative computer scientist graduate with years of computer technology experience and a passion for problem solving and willingness to learn. Seeking a position in the tech industry. Highly self-motivated and fast learner who has produced projects using hardware troubleshooting, AWS Cloud, Linux, and website design skills required to thrive in a professional work environment.

SKILLS

- Software Troubleshooting
- Hardware Troubleshooting
- Linux
- Project Management
- Website Design
- Software Development
- Cloud Configuration
- Cloud Security

PROJECTS

Established Computer System

- Strategized and executed a computer system set up and debugged hardware and software issues.
- Showed my skills reseating CMOS and accurately aligning memory when the system did not POST and had temperature issues.

Headless Media Center

- Achieved assembling a media center using a Raspberry Pi 4 by mounting Volumio OS to the device, making a blue-tooth hotspot available for connection.

Website Financial Dashboard with Arrays [GitHub Repository](#)

- Devised an EC2 static website and implemented ApexCharts with Java arrays to create a financial dashboard.
- Utilized services such as, Visual Studio Code, AWS Cloud, WinSCP, and GitHub to develop the project.

Cloud Website Portfolios [GitHub Repository](#)

- Devised a plan with milestones to complete two static website portfolios involving the AWS Cloud service S3 and Azure's storage container service. I developed the websites utilizing HTML, CSS, Java-Script, IAM, and Trello.

PROFESSIONAL EXPERIENCE

Woodworker [Sue's Antiques](#)

[06/2021 — Present](#)

- Planned refurbishing projects for 18th and 19th century antique furniture involving sanding and staining utilizing attention to detail.

Data Technician [CORESTAFF SERVICES](#)

[11/2020 — 12/2020](#)

- Accomplished hardware-focused AWS Cloud troubleshooting tickets involving unable to POST and vital updates.
- Adapted problem-solving skills to debug malfunctioning servers by rebooting servers or reseating and replacing hardware and cables.

Restaurant Server [Mariachis TequilaRia & Restaurant](#)

[06/2018 — 01/2019](#)

- Served customers while multi-tasking food orders, drink and chip refills, and station clean-up in a fast-paced environment.

Sale's Associate [PetValu](#)

[09/2015 — 08/2017](#)

- Faced with pet nutritional and health related issues I asked questions involving diet, exercise, symptoms, and allergies to accurately solve customer concern and did it effectively by utilizing critical thinking and communication skills.

EDUCATION

Computer Science, Northern Virginia Community College [2016 — 2020](#)
