SUMMARY

Computer Science graduate with a passion for problem-solving and learning, demonstrated experience in programming and customer service. Developed technical skill sets required to thrive in a professional work environment such as the AWS Cloud, web development, Linux, and computer technology troubleshooting.

SKILLS

- Computer Troubleshooting
- HTML & CSS
- Microsoft Excel
- Java
- AWS Cloud Services
- SSH
- Visual Studio Code
- Linux

PROJECTS

Website Financial Dashboard with Arrays GitHub Repository

- Devised an EC2 static website and implemented ApexCharts with Java arrays to create a financial dashboard.
- Utilized services such as, Visual Studio Code, AWS Cloud, WinSCP, and GitHub to develop the project while working in a several phases, completing the project in one month.

Static Website Portfolios GitHub Repository

- Coded four HTML, CSS, and Java-Script website templates by uploading the files to database and publishing services like S3, Azure Container, Surge, and GitHub Pages.
- Wrote custom domain for the website using Google Domains and configured a connection in the DNS records.

AWS Amplify Application Website GitHub Repository

- Streamlined an AWS Amplify project and put my skills to work in Linux and the AWS CLI conceptualizing an idea to have aa application as a website.

Headless Media Center

- Achieved assembling a media center using a Raspberry Pi 4 by mounting Volumio OS to the device, making a blue-tooth hotspot available for connection.

PROFESSIONAL EXPERIENCE

Data Technician CORESTAFF SERVICES

11/2020 — 12/2020

- Worked through AWS Cloud troubleshooting tickets involving unable to POST and vital updates by rebooting servers, utilizing Linux update commands, reseating hardware and CAT5/6 cables, and other troubleshooting techniques.

Restaurant Server Mariachis TequliaRia & Restaurant

06/2018 — 01/2019

- Served customers while multi-tasking food orders, drink and chip refills, and station clean-up in a fast-paced environment to provide the best customer service
