SUMMARY

Computer Science graduate with a passion for problem-solving and learning, demonstrated experience in programming and customer service. Developed technical skill sets required to thrive in a professional work environment such as the AWS Cloud, web development, Linux, and computer technology troubleshooting.

SKILLS

- Hardware Troubleshooting
- Server Troubleshooting
- Joomla & WordPress
- HTML & CSS
- AWS Cloud
- SSH
- Java
- RedHat

PROJECTS

Portfolios - Database Websites [GitHub Repository](#)

- Developed and maintained HTML and CSS websites using the services S3, Azure Container, Surge CLI, and GitHub Pages.
- Created custom domain name using Google domains and input the resource records and CNAME to the respective locations.
- Applied Agile best practices utilizing Trello's Kanban board tool.

Serverless Application [GitHub Repository](#)

- Launched a word processor application on AWS Amplify utilizing the CLI and configuring the REST framework backend files.
- Application files maintained and edited on GitHub repositories and Atom.

Headless Media Center

- Utilized Volumio after mounting the bootable program to a Raspberry Pi through the Linux based OS and entering Linux commands to connect the Volumio device to the phone application and account.
- Maintained and worked on the device using respective hardware and output the media player through Fender Squier 4 speakers connected using respective audio and power cables.

Computer Building and Troubleshooting

- Researched and budgeted computer hardware components and built the box while diagnosing issues with the booting, temperature, and cable management for peers and myself.
- Maintained the boxes by doing regular file cleaning, back-ups, hardware cleaning, and preventative measure programs.

PROFESSIONAL EXPERIENCE

Data Technician OBLS International LLC
09/2022 — Present

- Installing data server racks, routers and computers, and copper and fiber optic cables for Microsoft Azure servers and I routinely solve manufacturing issues and dress cables.

Woodworker Sue's Antiques
06/2021 — 09/2022

- After purchasing and finding old and damaged antique furniture and items, I refurbish them utilizing sanding and stanning techniques, then resell the 18th and 19th century antiques in a variety of store locations, making the highest quality antique refurbished furniture.

Data Technician CORESTAFF SERVICES
11/2020 — 12/2020

- Solved server related issues such as unable to POST and after analyzing the issue I diagnose the software or hardware by reseating hardware components, CAT5/6 cables, or rebooting the servers which resolved tickets.

Restaurant Server Mariachis TequliaRia & Restaurant
06/2018 — 01/2019

- While working in a fast-paced environment and multi-tasking, I managed my time effectively and made use of a step-by-step process taking orders, serving food and drinks, and welcoming new customers to provide the best quality customer service.
